## **DETAILED ACTION**

### ***Specification***

1. The disclosure is objected to because of the following informalities: page 2 et seq. refers to the claim(s) for support. It is the claim(s) which rely on the specification for support, not the other way around.

Appropriate correction is required.

### ***Claim Objections***

2. The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

In particular, these are apparatus claim(s) which employ past tense verbs. Verbs are associated with method claim(s). Nouns tend to be used with an apparatus.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

In particular, these are apparatus claim(s) which employ past tense verbs. Verbs are associated with method claim(s). Nouns tend to be used with an apparatus.

***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by either Schmidt (6,213,462) or McDermott (2,793,516) or Dunlop (2,044,158).

Regarding McDermott (2,793,516), see Figure(s) 3 & 7.

***Conclusion***

7. Claim 2 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
